Space Man

Sam Ryder

Verse 1:

C   **G**   **D**   **Em**
If I was an astronaut, I'd be floating in midair
C   **G**   **D**   **Em**
And a broken heart would just belong to someone else down there
C   **D**   **B7**   **Em**
I would be the centre of my lonely universe
C   **Cm**   **G**
But I'm only human and I'm crashing down to Earth

Chorus:

        C   **Em** **Am**
I'm up in space, man
         C   **Em**   **Am**
Up in space, man
D   **B7**
I searched around the universe
       Em   **Am**
Been down some black holes
        C   **Em**   **A7**
There's nothing but space, man
   D7sus4   **G**
And I want to go home

Verse 2:

C   **G**   **D**   **Em**
If I was an astronaut, I'd speak to satellites
C   **G**   **B7**   **Em**
My navigation systems would search for other life
C   **G**   **B7**   **Em**
But I'd be up here thinking 'bout what I'd left behind
C   **Cm**   **G**
'Cause I'm only human with the real world on my mind

Bridge:
Em   **Em7**   **A7**
Gravity keeps pulling me down
Em   **Em7**   **A7**
As long as you're on the ground, I'll stick around

C   A7
Stick around
               Dsus4 D
I'll stick around

Last Chorus:
           C   **Em Am**
I'm up in space, man
           C   **Em**   **Am**
Up in space, man
              C   **Em**   **Am**
Nothing but space, man
              C   **Em**   **A7**
There's nothing but space, man

D   **B7**
I searched around the universe
             Em   **Am**
Been down some black holes
               C   **Em**   **A7**
There's nothing but space, man
    D7sus4   **G**
And I want to go home
